📍 Hai Chau, Da Nang

OBJECTIVE

With a passion to pursue the information technology field and a desire to contribute to finished products, I have chosen software testing as a long-term job. As a young student, I always want to experience a lot, improve my skills to improve myself. The next 2 years goal will be to work in a professional environment, to learn from work as well as in life from all brothers and sisters. With enthusiasm, a sense of responsibility, I will try to complete the assigned work well, contribute into participating projects.
