Danang, Vietnam

With a passion to pursue the field of information technology and a desire to create perfect products, I have chosen a programmer as a long-term job. As a young student, I always want to experience a lot, hone my skills to improve myself. The goal in the next 2 years will be to work in a professional environment, learn from the older brothers and sisters in work and life. With enthusiasm, a sense of responsibility, I will try to complete the assigned work well and dedicate myself to the projects that I participate in.

Education

UNIVERSITY OF TECHNOLOGY AND EDUCATION, Major: Information Technology

08/2018 - Now
